

Professional Summary

Full Stack Software Engineer with 2.5+ years of experience building scalable SaaS applications across frontend, backend, and API layers using React.js, Next.js, Node.js, Express.js, TypeScript, PHP, Laravel, and MongoDB. Experienced in system design, API security, database optimization, microservices, and third-party integrations, with ownership of end-to-end feature delivery, 25+ secured APIs, and resolution of 100+ production issues.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Bootstrap
Backend: Node.js, Express.js, REST APIs, Java, PHP, Laravel
Databases: MongoDB (NoSQL), MySQL, PostgreSQL, Redis
DevOps & Tools: Git, GitHub, Docker, Jenkins, CI/CD Pipelines, AWS
Project Management: Jira, ClickUp
Monitoring & Debugging: Clockwork, Datadog
Core Strengths: System Design, Microservices, API Security, Database Optimization, Integrations, Debugging

Experience

Unstop

Apr 2026 – Present

Software Development Engineer

Delhi

- **API Security:** Secured 25+ REST endpoints using Node.js, token validation, RBAC, authentication, authorization, and rate limiting, strengthening API security and mitigating unauthorized access risks.
- **Query Optimization:** Profiled and optimized Laravel/MySQL queries using Clockwork, identifying bottlenecks and redundant database operations to improve API response efficiency and application performance.
- **Feature Engineering:** Owned delivery of 8+ features using React.js, Node.js, and TypeScript from requirement analysis and API design through implementation, testing, and production rollout.
- **System Design:** Designed scalable modules by defining API contracts, data flows, service boundaries, and integration patterns, improving maintainability across frontend, backend, and microservices.

JungleWorks Pvt Ltd

Nov 2024 – Mar 2026

Software Engineer

Mohali, Punjab

Product-based SaaS Platforms: Jugnoo & Yelo

- **Integrations:** Engineered 15+ third-party integrations using Node.js, REST APIs, payment gateways, notifications, and partner APIs, enabling reliable transactional workflows across SaaS systems.
- **API Engineering:** Designed and enhanced 20+ REST APIs using Node.js and Express.js with validation, authorization, and structured error handling, improving reliability and scalability.
- **Technical Leadership:** Guided 5 developers through architecture discussions, code reviews, debugging, sprint planning, and mentoring, improving delivery consistency and code quality.
- **Production Debugging:** Resolved 100+ production and pre-production issues using logs, database analysis, and root-cause investigation, improving system stability and operational reliability.
- **Performance Engineering:** Delivered 30+ enhancements through query optimization, caching, and database tuning across Jugnoo and Yelo, improving application responsiveness and efficiency.

WTechy Pvt Ltd

Jun 2024 – Nov 2024

Web Developer Executive

Panchkula, Haryana

- **Frontend Engineering:** Built 5+ responsive applications using React.js and Next.js with reusable components and SEO-focused architecture, improving maintainability and UI consistency.
- **Backend Engineering:** Developed REST APIs and backend services using Node.js, MongoDB with authentication, session management, and optimized data flows.
- **CMS Integration:** Integrated CMS solutions into client applications, reducing content update turnaround time by 40% and enabling independent content management.
- **Solution Delivery:** Translated client requirements into technical specifications and production-ready implementations, delivering features across multiple web projects within defined requirements.

Education

Panjab University

2021 – 2024

Master of Computer Applications (82%)

Chandigarh

Panjab University

2018 – 2021

Bachelor of Computer Applications (83.5%)
