PROFESSIONAL SUMMARY

Full Stack Software Engineer with 2.5+ years of experience designing and building scalable SaaS web applications using React.js, Next.js, Node.js, Express.js, TypeScript, and MongoDB. Skilled in RESTful API design, system design, and microservices architecture, with a track record of leading developers, strengthening API security, resolving 100+ production issues, and delivering high-impact features across fast-paced, cross-functional teams.

TECHNICAL SKILLS

- Frontend:** HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Bootstrap
- Backend:** Node.js, Express.js, REST APIs, Java, PHP, Laravel
- Databases:** MongoDB (NoSQL), MySQL, Redis
- DevOps & Tools:** Git, GitHub, Docker, Jenkins, CI/CD Pipelines, AWS
- Core Strengths:** Data Structures & Algorithms, System Design, Microservices Architecture, Third-Party Integrations, Debugging, Production Issue Resolution, SaaS Systems

EXPERIENCE

Unstop

Apr 2026 – Present

Software Development Engineer 1

Delhi

- API Security:** Strengthened API security across 10+ endpoints by hardening authentication and authorization flows, implementing token validation, rate-limiting, and role-based access control to reduce vulnerability exposure.
- Feature Development:** Built and shipped 8+ new features end-to-end, from requirement analysis and API design to frontend integration, using React.js, Node.js, and TypeScript while collaborating closely with product and QA teams.
- System Design:** Contributed to system design discussions for new modules, evaluating scalability, data flow, microservices boundaries, and API structure to support long-term maintainability.
- Bug Fixing:** Identified and resolved 25+ bugs across the codebase through root-cause analysis, debugging, and regression testing, improving application stability and reducing repeat issues.

JungleWorks Pvt Ltd

Nov 2024 – Mar 2026

Software Engineer (Jugnoo & Yelo — SaaS platforms)

Mohali, Punjab

- Integrations:** Implemented and maintained 15+ third-party integrations including payment gateways, notification services, and partner APIs, supporting high-volume transactional workflows across microservices.
- API Development:** Designed and enhanced 20+ RESTful APIs with request validation, role-based authorization, and structured error handling, improving reliability, scalability, and response consistency.
- Leadership:** Led a team of 5 developers by planning sprints, conducting code reviews, and mentoring juniors on system design and best practices, ensuring on-time delivery and consistent code quality.
- Debugging:** Resolved 100+ production and pre-production issues through debugging, log analysis, and root cause investigation, significantly improving system stability and uptime.
- Product Improvements:** Delivered 30+ feature enhancements and performance optimizations across Jugnoo and Yelo, including query optimization, caching strategies, and database tuning.

WTechy Pvt Ltd

Jun 2024 – Nov 2024

Web Developer Executive

Panchkula, Haryana

- Frontend Development:** Built 5+ responsive and SEO-friendly web applications using React.js and Next.js, focusing on reusable components, clean UI architecture, and cross-browser compatibility.
- Backend Development:** Developed backend services and RESTful APIs using Node.js, MongoDB, and PHP/Laravel, implementing authentication, session handling, and efficient data flows.
- CMS Integration:** Integrated CMS solutions into client websites, reducing content update turnaround time by 40% and enabling non-technical teams to manage content independently.
- Client Collaboration:** Worked directly with clients to gather requirements and translate them into technical specifications, ensuring timely and accurate feature delivery.

EDUCATION

Panjab University

2021 – 2024

Master of Computer Applications (82%)

Chandigarh

Panjab University

2018 – 2021

Bachelor of Computer Applications (83.5%)
